DUNBARTON VOLUNTEER FIRE DEPARTMENT

Dunbarton, N. H.

14 alarms of Fire were answered during the past year, as follows:

7 Chimney
5 Grass or woods
1 Dump
1 Cow barn

A loss of $1,000.00 was suffered which was but partially covered by insurance.

As insurance rarely covers the entire loss suffered by Fire, it is to everyone's advantage to be extremely careful of Fire.

Keep Oil, Grease, Gasoline, etc., in proper containers.

Keep rubbish cleaned up and disposed of in a safe manner, if by burning, choose a still, damp day preferably toward evening when there is less chance of a rising wind.

Keep chimneys and smoke pipes tight and clean. Chimney fires are the start of a majority of farm fires.

Wherever possible, arrange a water supply for fire fighting by digging a basin or water hole, or damming a stream.

Play safe, be careful of FIRE.

LYMAN H. NUTT,
Chief.

REPORT OF THE FOREST FIRE WARDEN

Crises like the present test the quality and sincerity of everyone's patriotism and citizenship. The times make such unavoidable demands for universal cooperation in the many lines of essential regular and emergency public endeavor that the response given may well be assumed to be the real measure of one's love of country and his appreciation of the opportunities it offers. Ranking high in the list of public endeavor is the protection of our forests from fire. It calls for full and generous cooperation by each of us. Fire statistics indicate that better than 98 per cent of all fires in New Hampshire are man-caused. If human carelessness could be eliminated from the problem, the number of fires would drop to a mere minimum of less than 2 per cent of present figures and fire costs and losses would reduce in proportion. While this goal will not be achieved because of the perversity of human nature, the record can be vastly improved through individual discipline, alertness and cooperation.

Discipline calls for personal restraint from following unrestricted natural impulses to do as one pleases with regard to fire; alertness in cautioning others against imprudent and illegal burning and in promptly reporting fires to the local forest fire warden; cooperation in complying with laws, rules, and regulations governing the kindling and care of fires, smoking, safety of mechanical units using fire in and near woodlands and assisting the local warden in extinguishing such fires as may occur.

The possibilities of disastrous and expensive woods fires are constantly becoming more real. The hurricane felled an estimated one and one-half billion board feet of standing timber, much of which was never cleaned up. To this haz-

ard has been and is being added extensive areas of slash from additional hundreds of millions cut to produce vitally needed wood for the war effort. With the stage so set, greater caution is increasingly necessary. It will pay substantial dividends in unburned forest areas and the saving of unnecessary fire expense.

The year 1943 was an extremely fortunate one because of favorable weather conditions. Many towns had no fires, some had minor fires while a few had expensive ones. The public controls the answer to the 1944 and future years' fire records. If the public is careful and cooperative the record will be good.

Your town warden is, perhaps, more perplexed and anxious during these war years than ever before because of increased forest fire hazards and diminishing supplies of available man-power. He looks directly to you to aid him. Will you? You can aid him most effectively by always securing the required permit before attempting to burn and by complying fully with permit requirements; by being patient when he advises of departmental restrictions on permit burning or that he deems it unsafe to burn; and by giving him the needed assistance in extinguishing fires when he needs your help. To do so is to meet one real test of citizenship.

REPORT OF SCHOOL BOARD

To the Inhabitants of the School District of Dunbarton:

The School Board herewith submits its annual report for the year 1943:

The Montalona schoolhouse was renovated during the summer vacation. A new foundation was built and sills replaced. The building was shingled and painted. New screens were made for the windows. The ceiling, walls, woodwork and blackboards in the schoolroom were painted and a hardwood floor laid. The adjoining shed was improved by the addition of two windows.

A visiting day was allowed the teachers, last year, which proved beneficial. Several teachers visited elementary schools in Manchester.

A combination radio and victrola was presented to the Center School by Mrs. Caleb Fuller. The teachers, pupils and members of the Board are grateful to Mrs. Fuller for this gift.

The School Board desires to express appreciation to the teachers, school nurse, superintendent and all others connected with the school organization for their splendid cooperation.

Respectfully submitted,

EVA A. TUCKER,
MARY I. STONE,
WESTON P. LORD,
School Board.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Dunbarton:

It is with pleasure that I submit my annual report as Superintendent of your schools.

Three changes in our teaching staff have occurred since a year ago. Mrs. Marjory Frink, a graduate of Keene and an experienced teacher, replaced Mrs. Marshall when the latter resigned. Mrs. Marshall over a period of years has won the respect of many people as a conscientious and gifted teacher. Dunbarton is indeed indebted to her for the contribution she has made to our schools.

After the resignation of Miss Stacey this past fall, Mrs. Grace Webster of New Boston, a graduate of Salem Teachers' College with further study at the N. E. Conservatory of Music as well as summer courses at Keene and Plymouth, assumed the position at the South Dunbarton School.

Mrs. Katherine Bartlett of Grasmere was engaged as music teacher, replacing Mrs. Buswell who had resigned.

The enrollment last year as will be seen by the table at the end of this report was 81 as compared with 79 the year before, showing no marked change.

Teachers and pupils have cooperated in a fine manner to meet the increased demands of war and to prepare our students for the peace which will follow. The aims and objectives of instruction have been the training of youth for the immediate tasks at hand as well as to equip them with the knowledge and experience needed to live in the world of the future as worthy citizens.

Immediate demands for assistance in the war effort have

been efficiently and cheerfully met in our town and in neighboring schools. These include help in planting and harvesting farm crops, sale of war stamps in an ever increasing volume, issuance of Ration Book Four, Junior Red Cross activities, salvage collections, and the like.

Teaching of the basic skills is the essential task of the schools and it is our policy to see that the job is thoroughly done by means of the best accepted methods. In order for pupils to succeed in school work it is necessary that they possess a good foundation in reading habits and abilities. For this reason the major part of book expenditures has been to equip elementary grades with a good reading system supplemented by workbook exercises for reading growth with correct language habits in writing and speaking.

We as citizens owe our gratitude to the teachers who have remained loyal to their profession of teaching and to the married women who have assumed teaching positions which otherwise could not have been filled. Like their sisters in the armed forces, the Wits, our Women In Teaching Service, are protecting our social structure from danger. What our civilization may be tomorrow depends in large measure upon what the present generation becomes.

The future offers a great challenge. The shortage of teachers was acute last year; now it is alarming. It will remain serious even after the war because new teachers are being trained in smaller and smaller numbers. Teacher college enrollments now are the smallest in many years. Consolidated schools and better salaries are measures which will be adopted in the most progressive towns to provide better advantages for children and to secure the best of available teachers.

The cooperation of parents, other citizens, and members of the school organization is greatly appreciated.

Respectfully submitted,
HARLAN E. ATHERTON,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

Every child should make a regular annual gain; therefore, each pupil is weighed and measured at the beginning of the school year, then several times before the close of school in June, so that we may ascertain their rate of growth according to the scale prepared by the State Board of Health. The normal weight is judged according to the height and age of the child.

About 80 pupils were examined the first of the school year, and the parents notified of any weakness or defect found.

Frequent use of the clinics affords opportunity for an early diagnosis, treatments and corrections without any or but little expense.

Due to the shortage of doctors in the fall of 1943, we have been unable to take advantage of the heart clinics usually held once a month at the Elliot Hospital. This same condition existed in the dental profession, and we regret that we have been unable to hold our usual dental clinic this year. Our last clinic was given September, 1942. We have been more fortunate with the orthopedic clinics for treatments by appointment only were given to several of our physically handicapped children in two towns in this Union. The past year has been unusually free from any kind of an epidemic.

A talk was given at the Center School on the blood bank at the time the Red Cross was asking for blood donors.

Record of annual examination and follow-up work from September 1942 to December, 1943:

Defective vision 11; number of defects corrected	8
Defective teeth 50; number of defects corrected	35

Diseased tonsils 9; number of cases corrected		6
Sprained shoulder	1	
Fractured arm	1	
Orthopedic case	1	
Appendictomy	1	

Arrangements were made for one child to attend the mental hygiene clinic. A dental clinic was given September, 1942. Twenty-five received complete care.

All were fingerprinted in March, 1943.

An audiometer test was given in February, 1943.

EDITH G. WALKER,
School Nurse.

HOME FOOD PRODUCTION

Patriotism, prudence, and protection of health combine to urge that in 1944 every family produce and preserve for home consumption as much of the family's yearly food supply as possible. Home food production will assure our own food supply, will release more foods for the armed forces and lend-lease, will help meet the national goals, and will relieve transportation, labor and equipment shortages.

To help families with their plans for food production and preservation at home, the University of New Hampshire Extension Service lists the following free bulletins for your use:

Hotbeds and Cold Frames	Ext. Circ. 214
The Home Vegetable Garden	Ext. Circ. 170

FORESTRY AND RECREATION DEPARTMENT

STATE OF NEW HAMPSHIRE

February 9, 1944

Board of Selectmen,
Dunbarton, N. H.

Gentlemen:

In accordance with our past policy we are submitting a financial statement covering White Pine Blister Rust Control which was conducted in your town during the season of 1943.

Being mindful of the labor shortage, and the needs of agriculture every effort was made to the end that blister rust control would not interfere with farm activities. Consequently, it was sometimes necessary to defer or suspend control work either during the planting or harvesting season. In some instances high school boys were employed and it can be said to their credit that excellent service was rendered. While rates of pay for unskilled labor were higher than in the past, nevertheless, they were held to the local scale set up by the towns.

As formerly, the training and supervision of the crews was handled by the District Blister Rust Leader, an employee of the U. S. Department of Agriculture, but working under the direction of this office. We greatly appreciate the assistance given him by the members of the Board.

Since the present war has demanded so much lumber, a great reduction has taken place in the stands of merchantable white pine, thus leaving a great deal of young growth. Since the younger pines are quickly killed by the Rust, it is very important that this disease be kept under control in the interest of a future crop of pine.

It is recommended that this letter and the accompanying financial statement be printed in the town's annual report.

Very truly yours,

JOHN H. FOSTER,
State Forester.
